

# Rejuvenation System

**Pet Industry's First**

**Pet Esthé's goal is to rejuvenate your pet.** There are four elements to pet rejuvenation. These are: improving the coat, improving the skin, improving the coat color, and the mutual healing of both pet and human. Our rejuvenation philosophy involves all four.

In human esthetics technology, the skin treatment means rejuvenating the skin condition such as rejuvenating the skin, removing crow's feet, and whitening the skin. In pets, the skin is hidden under the coat, so even if the skin condition is improved, the pet does not look rejuvenated. Pets cannot be rejuvenated without rejuvenating their coats. This is the difference between pets and humans. Of course, the hidden skin is also important, so in the Pet Esthé Special Care System, we aim to rejuvenate the coat and the skin at the same time.

<p><b>Before</b></p>	<p><b>After</b></p> <p><b>Revitalizes discolored hair</b></p>
	<p><b>Restores gray hair to its original state.</b></p>
	<p><b>Enhances breed uniqueness</b></p>
	<p><b>Counteracts UV damage</b></p>
	<p><b>Aging dogs regain youthfulness</b></p>

**Pet Esthé®**

**Color Restoration System**

TOKYO • PARIS

Pet Esthé is a registered trademark of Merry Do Beauty Products Co., Ltd.

## Special Program Series
